Hydronic operation

Product data sheet

always the best climate

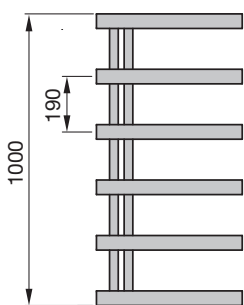

Zehnder Alban

A design concept made for purists – precise lines, flat sides and right angles. The angular radiator with a practical side - slide on and hang up towels effortlessly with just one hand. Connected directly to the central heating system, this decorative radiator keeps the bathroom warm and comfortable. Alban from the Zehnder Studio Collection: the design version made of hand-polished, high-quality stainless steel. Simple, elegant design – and warm towels whenever you need them.

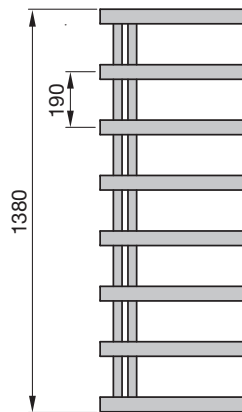

Advantages

- A modern, unfussy radiator design whose geometric shapes allow it to blend perfectly into any bathroom
- Open access from both sides makes it very convenient for hanging even very thick towels and sliding them in from the side
- High-quality stainless steel surface ensures easy cleaning and maximum hygiene
- Option to be fitted with the open end on the left or right, ensuring flexibility
- Hand-polished stainless steel
- Available for operation on central heating system
