

# Zehnder Forma Spa

Electric operation

Product data sheet

always the best climate

A pleasant heat and a relaxed look for your bathroom. The reason is its tube-on-tube construction. Generous wall clearance creates space for hanging large, fluffy towels. That is Zehnder Forma Spa. Available in almost any colour and finish from the Zehnder colour chart.

### Advantages

- Relaxed look through cross-connected tubes
- Available as single or double-layered versions, offering the right solution for different output requirements
- Generous spaces between tubes in the single-layer model convenient for hanging towels
- Brushed stainless steel version ensures resistance to corrosion
- Aesthetically pleasing design due to flat and discreetly integrated boost heater
- Comfort on demand due to adjustable boost heating

### Special benefits for electric operation

- Demand control provided by three radiator temperature levels
- Heat is readily available due to pre-defined timer function
- Dry-running protection prevents temperature warning
- Comes ready-to-plug for easy and quick installation
- Customisable daily and weekly programmes for convenient, on-demand operation
- Energy-efficient and comfortable heating with innovative “open window detection”
- Electric operation provides warm towels and comfortable rooms all year round
- High energy efficiency due to compliance with the European Ecodesign Directive reduces energy costs
- Low energy consumption of only 0.5 W or less in stand-by mode for increased energy efficiency
- User-friendly remote control allows simple operation
- Increased safety with keylock
- Flexible control options: remote control for wall mounting or base mount
- Maximum surface temperature of 65 °C ensures increased safety (chrome-plated version)
- Modular range: Remote control enabling functions such as the use of daily and weekly programmes via an app can be purchased separately
- Remote control for regulating room temperature as required with four adjustable temperatures
