**ZEHNDER ARCHIBALD**

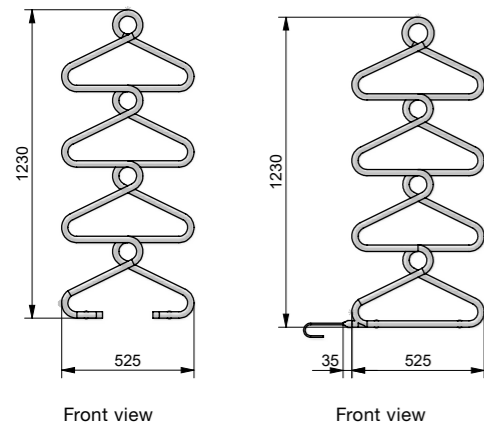

# STUDIO COLLECTION ZEHNDER ARCHIBALD

At your service. This original designer radiator is an elegant assistant with countless virtues. Archibald from the Zehnder Studio Collection plays its supporting role - in the truest sense of the word - especially in the bathroom: it takes care of you, heats, dries your towels and, thanks to its warmth, ensures a comfortable environment at all times. The shape is as evocative as the structure of this radiator is original, made of a single curved steel tube. With Zehnder Archibald, its designer Leo Salzedo has created a new, modern and elegant concept of the room, combining unmistakable design and high functionality

## Advantages

- Innovative designer radiator for the bathroom and kitchen
- With a minimum of space for accommodating up to 4 towels, which are heated or dried at the same time
- Available in all colours of the Zehnder colour chart or chrome-plated.
- For hot water or electric operation
